

Installation

Installation Guide for Acme Google Docs Jira App

This guide provides a step-by-step process to install and start using the Acme Google Docs app within Jira. Ensure you have the necessary admin privileges for installation.

Step 1: Log in to Jira

- Make sure you are logged in with Admin privileges to perform the installation.

Step 2: Open the Atlassian Marketplace

- In Jira, navigate to [Apps](#) → [Explore more apps](#) to open the Atlassian Marketplace.

Step 3: Search for **Acme Google Docs**

- Use the search bar in the Marketplace to locate the Acme Google Docs app.

Step 4: Install the App

- Click [Get app](#) or [Try it free](#) to start the installation process.
- Confirm the installation and grant any necessary permissions.

Step 5: Configure the App

- After installation, go to [Manage Apps](#) under the Admin section to ensure the app is enabled.
- The Acme Google Docs panel will now be available in your Jira issue view.

Step 6: Start Using the App

- Open any Jira issue to view, add, or manage Google Docs links directly within the issue view.

Follow these steps to seamlessly integrate Google Docs functionality within your Jira issues using the Acme Google Docs app.
