View Link History

Step 1:

Integrate the Appvibe Adobe XD Integration app with your Jira instance. This app allows you to track changes made to Adobe XD links within Jira issues.

Step 2:

Whenever an Adobe XD link within a Jira issue is modified, the app automatically logs the modification in the history. This recording can be accessed both at the individual link level and at the Jira issue level.

Link Permissions

Step 1:

Go to the Appvibe Adobe XD Integration configuration page, or click permission from within the link settings in a Jira issue.

Step 2:

Select the desired permissions for each user.

- **Viewer:** Users with view permission can see the link in the Jira issue.
- **Editor:** Users with edit permission can add, edit, or remove links in the Jira issue.
- **Admin:** Users with admin permission can manage link permissions for other users.
