

# Key Features

---

## Feature 1:

**Add Links:** Embed Adobe XD links directly into Jira issues for quick access to spreadsheets. This feature allows teams to have instant access to necessary design prototypes and updates without leaving their project management platform.

## Feature 2:

**Edit Links:** Update or modify embedded Adobe XD links as the spreadsheet changes. Keeping links up-to-date ensures that team members are always accessing the latest design versions, streamlining collaboration and efficiency.

## Feature 3:

**Remove Links:** Easily remove links when they are no longer relevant to the project. This helps maintain clarity and organization within the Jira issue, preventing clutter and potential confusion.

## Feature 4:

**View Links in Preview and Full Screen:** Preview Adobe XD content directly in Jira, or expand it to full screen for a more detailed inspection. This flexibility supports different use cases, from quick glances to in-depth reviews.

## Feature 5:

**Sort Links:** Organize Adobe XD links by custom criteria, name, or date. This functionality aids in quickly finding the right design assets, enhancing productivity and efficiency for all team members.

## Feature 6:

**Realign Links:** Adjust the positioning of Adobe XD links within the Jira issue. Optimal organization and presentation of links contribute to improved workflow and usability.

## Feature 7:

**View Links in List or Tile View:** Toggle between list or tile layout for viewing links, enabling users to choose the most convenient format for their needs and preferences.

## Feature 8:

**Manage Permissions:** Control who can view and interact with Adobe XD links embedded in Jira. This ensures security and confidentiality by allowing access only to authorized personnel.

## Feature 9:

**View Link History:** Access the history of changes made to each Adobe XD link. Tracking changes provides insight into the evolution of design elements, which supports auditing and accountability efforts.
