

Overview of Features

- Key Features

Key Features

Feature 1:

Add Links: Embed Azure DevOps links directly into Jira issues for quick access to spreadsheets, enabling seamless collaboration and efficiency.

Feature 2:

Edit Links: Update or modify embedded Azure DevOps links as the spreadsheet changes, ensuring that all data stays current and relevant.

Feature 3:

Remove Links: Remove links when they are no longer relevant, keeping your Jira issues streamlined and clutter-free.

Feature 4:

View Links in Preview and Full Screen: Preview Azure DevOps content or expand it to full screen, providing a flexible viewing experience for better clarity.

Feature 5:

Sort Links: Organize Azure DevOps links by custom criteria, name, or date, allowing for tailored navigation and accessibility.

Feature 6:

Realign Links: Adjust the positioning of Azure DevOps links within the Jira issue, offering customization for optimal link placement.

Feature 7:

View Links in List or Tile View: Toggle between list or tile layout for viewing links, catering to personal preferences and enhancing usability.

Feature 8:

Manage Permissions: Control who can view and interact with Azure DevOps links embedded in Jira, ensuring security and controlled access.

Feature 9:

View Link History: Access the history of changes made to each Azure DevOps link, providing an audit trail and facilitating change tracking.
