

Add a Canva Link

Click the **"Add"** button (See image below). A form will appear inline, allowing you to enter:

- **Canva Design Embedded URL** – The link to your Canva design.
- **Title** – A meaningful name for the design. (optional)

NOTE: It is important to get the link in the right link. You will need a Canva smart embedded link. To do this, navigate to your Canva design, then go to Share > More > Embed > Smart embed link. Click on "Copy".

Once the details are entered, click **Add**.

The screenshot displays a Jira issue form for a project named 'DEV-25 / DEV-41'. The issue title is 'Configuration is unique for each board/project'. The form includes sections for 'Description', 'Story point estimate' (0.25), and 'Canva Integration'. The 'Canva Integration' section is expanded, showing a 'Canva Links' field with the URL 'https://www.canva.com/design/DACnhpNZtug/YpCDZpvMOBomWNZjzAJZGQ/view' and a 'Configuration Drawing' field. A green 'Add' button is visible next to the 'Configuration Drawing' field. The right sidebar shows the 'Details' tab with fields for Assignee (Unassigned), Labels (None), Parent (DEV-25 Configuration for Test ...), Team (None), Development, and Reporter (Admin). The bottom of the form features a comment section with a 'Pro tip: press M to comment' message and a row of buttons: 'Looks good!', 'Need help?', 'This is blocked...', 'Can you clarify...?', and 'Th >'. The top right of the form has a 'Done' button and an 'Actions' dropdown menu.

Revision #7
