

Add a Canva Link

Click the **"Add"** button (See image below). A form will appear inline, allowing you to enter:

- **Canva Design Embedded URL** – The link to your Canva design.
- **Title** – A meaningful name for the design. (optional)

NOTE: It is important to get the link in the right link. You will need a Canva smart embedded link. To do this, navigate to your Canva design, then go to Share > More > Embed > Smart embed link. Click on "Copy".

Once the details are entered, click **Add**.

The screenshot displays a Jira issue configuration page. At the top, there are tabs for 'DEV-25' and 'DEV-41'. Below the tabs, a header states 'Configuration is unique for each board/project'. A toolbar contains buttons for 'Attach', 'Add a child issue', 'Link issue', 'Canva Integration', and a menu icon. The 'Description' section has a text area with 'Add a description...'. The 'Story point estimate' is set to '0.25'. The 'Canva Integration' section is expanded, showing 'Canva Integration by Appvibe'. Under 'Canva Links', there is a text input field containing the URL 'https://www.canva.com/design/DACnhpNZtug/YpCDZpvMOBomWNZjzAJZGQ/view' and a 'Configuration Drawing' label. A green 'Add' button is visible. At the bottom, there is a comment section with a text area 'Add a comment...' and a row of buttons: 'Looks good!', 'Need help?', 'This is blocked...', 'Can you clarify...?', and 'Th'. A 'Pro tip' message at the bottom left says 'press M to comment'. On the right side, a sidebar shows the issue details, including 'Assignee: Unassigned', 'Labels: None', 'Parent: DEV-25 Configuration for Test ...', 'Team: None', 'Development', and 'Reporter: Admin'. The sidebar also shows 'Automation' and 'Rule executions' sections.

Revision #7
