

Edit a Canva Link

Each saved link can be **Edited**:

- **Edit**: Opens the inline form for modifications.

The screenshot displays a Jira ticket interface. At the top, it shows the project 'DEV-25' and issue 'DEV-41'. The ticket has a 'Description' field with the placeholder 'Add a description...' and a 'Story point estimate' of '0.25'. Below this is the 'Canva Integration' section, which includes a 'Canva Links' area. A link titled 'Configuration Drawing' is shown with a 'Flowchart' thumbnail and 'Hide', 'Edit', and 'Delete' buttons. The 'Activity' section shows a comment from user 'A' with a text input field and a dropdown menu containing options like 'Looks good!', 'Need help?', 'This is blocked...', and 'Can you clarify...?'. On the right, a 'Details' sidebar shows the assignee as 'Unassigned', labels as 'None', parent as 'DEV-25 Configuration for Test ...', team as 'None', development, and reporter as 'Admin'. The 'Automation' section shows 'Rule executions' and a 'Configure' button. The bottom of the sidebar shows the ticket's creation and update history.

Revision #2
