

Remove a Canva Link

Each saved link can be **Removed**:

- **Delete**: Triggers a **confirmation popup** for deletion.

The screenshot displays a Jira ticket interface. At the top, it shows the ticket key 'DEV-25 / DEV-41' and various utility icons. The main content area is divided into several sections: 'Description' with a placeholder 'Add a description...', 'Story point estimate' set to '0.25', and 'Canva Integration' by Appvibe. Below this is the 'Canva Links' section, which contains a link titled 'Configuration Drawing' with a 'Delete' button. To the right, a 'Details' sidebar lists fields such as Assignee (Unassigned), Labels (None), Parent (DEV-25 Configuration for Test ...), Team (None), Development, and Reporter (Admin). At the bottom, the 'Automation' section shows rule executions and a 'Configure' button. The 'Activity' section at the very bottom includes a comment input field and a list of comment templates like 'Looks good!', 'Need help?', 'This is blocked...', and 'Can you clarify...?'. A 'Pro tip' at the bottom left suggests pressing 'M' to comment.

Revision #3
