

# GitHub Integration for monday.com

The purpose of this GitHub integration is to connect your GitHub repositories to your [monday.com](https://monday.com) account. After installing the app, you will be able to see your repositories listed in your monday.com board view. You will also be able to search, filter, create repos, branches, or delete them.

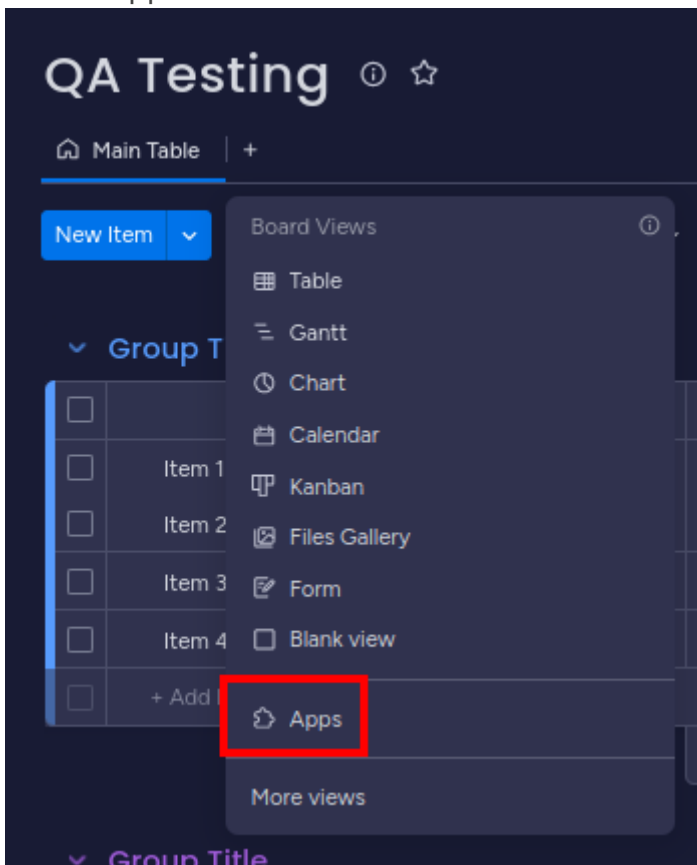

## Getting Started

After installing the app, you can add it to a monday board by following these steps:

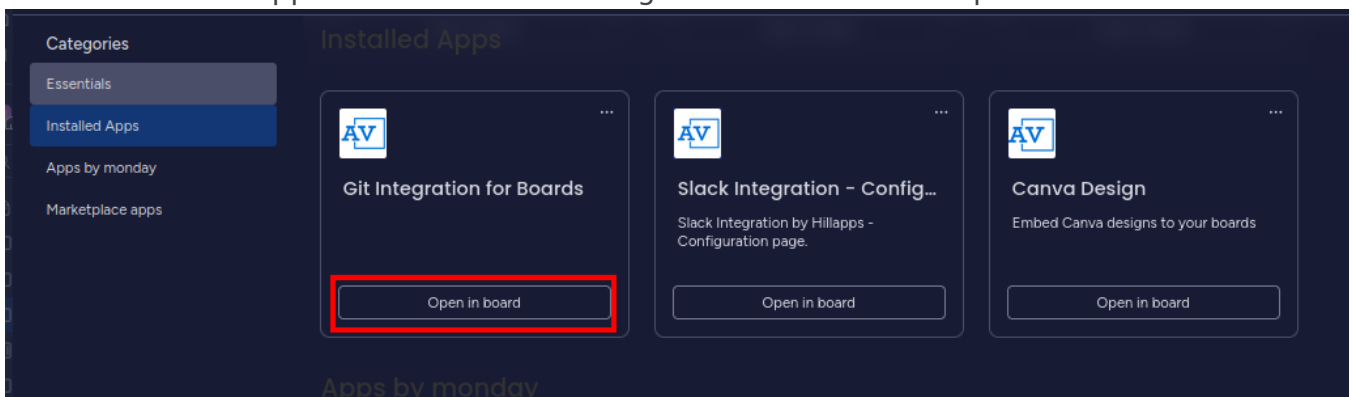

1. Click on the + icon for your monday board

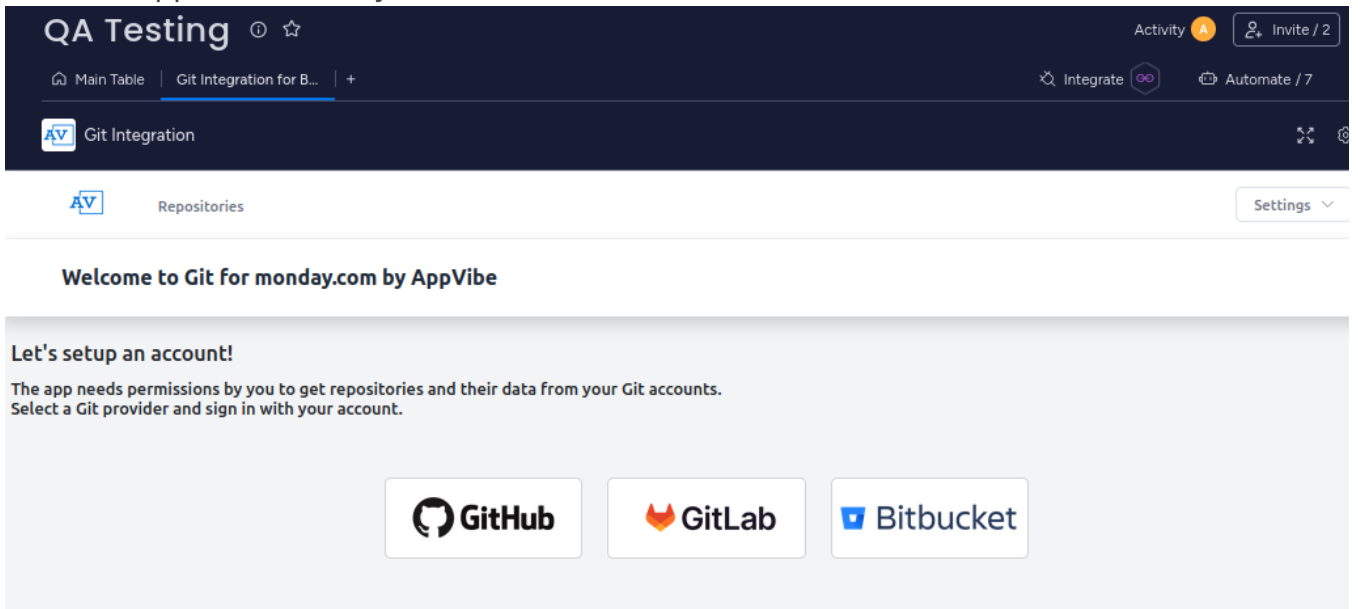

2. Go to "Apps"

3. Under "Installed Apps" find the GitHub integration and click on "Open in board"

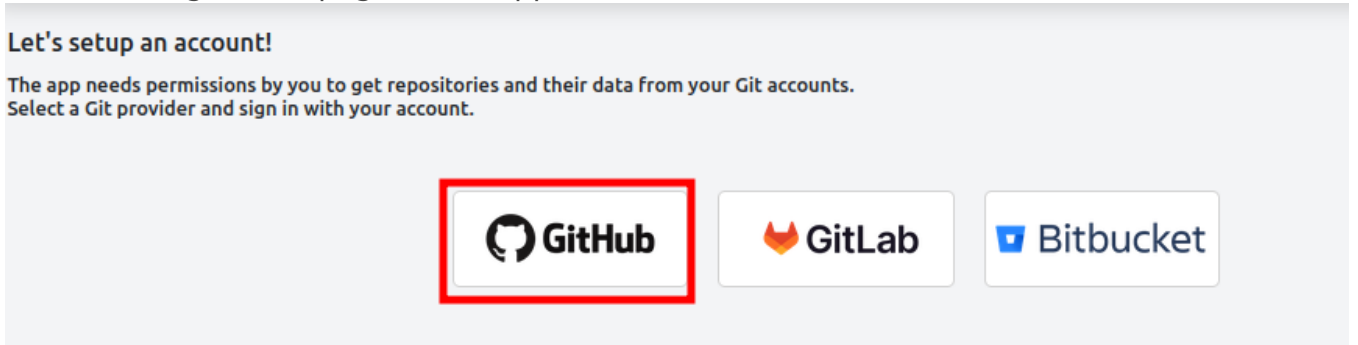

4. Now the app is added to your board:

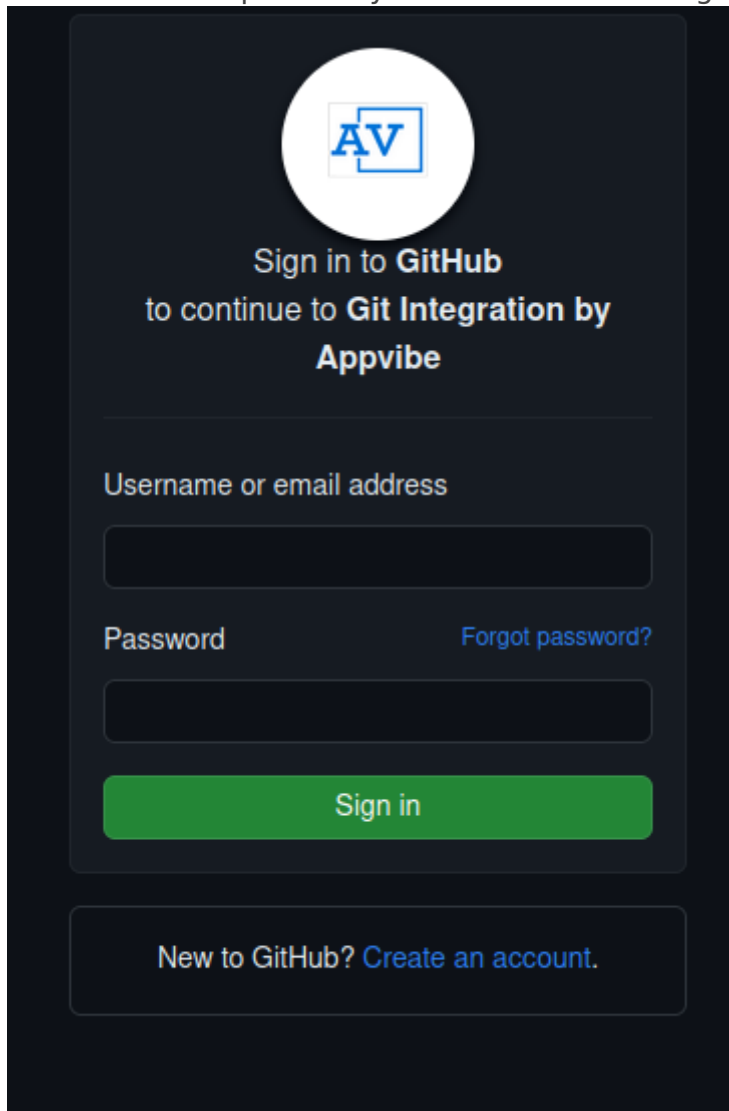

## Connecting a GitHub account

To connect a GitHub account, please follow the steps below:

1. On the configuration page of the app, click on "GitHub"

2. A new tab will open and you will be asked to sign in to your GitHub account

The image shows a GitHub login interface with a dark background. At the top, there is a circular profile picture placeholder containing a blue 'AV' logo. Below this, the text reads 'Sign in to GitHub to continue to Git Integration by Appvibe'. The form includes a 'Username or email address' field, a 'Password' field with a 'Forgot password?' link, and a green 'Sign in' button. At the bottom, there is a link to 'Create an account' for new users.

Sign in to **GitHub**  
to continue to **Git Integration by Appvibe**

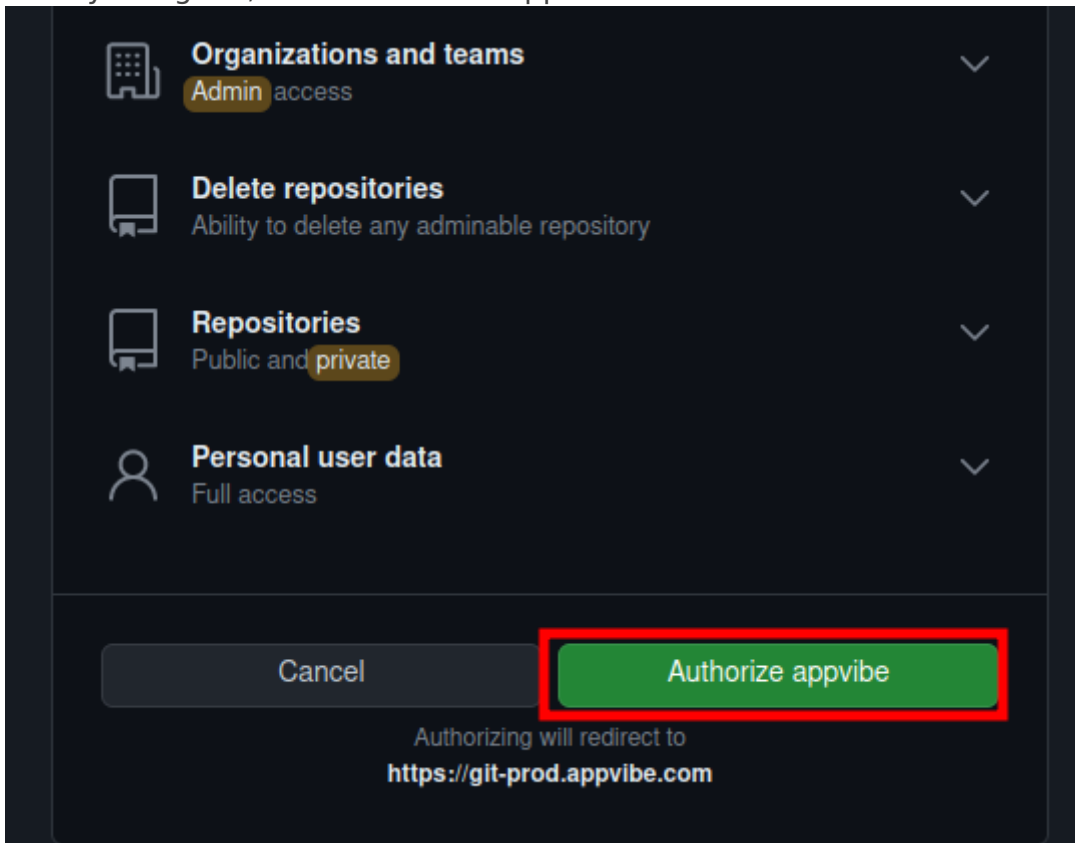

Username or email address

Password [Forgot password?](#)

**Sign in**

New to GitHub? [Create an account.](#)

3. After you sign in, click "Authorize Appvibe"

4. If you see the successful authorization message, you can close the new tab

**Authentication is successful!**  
You can close this window now.

## Creating a repository

To create a new repository with the app, click on the "Create a repository" button:

The screenshot shows the "Repositories" page in Appvibe. At the top, there's a header with the Appvibe logo, the word "Repositories", and a "Settings" dropdown. Below the header, the word "Repositories" is repeated. On the right side, there's a "Create a repository" button highlighted with a red rectangle. Below this is a table with columns: ID, Name, Location, Description, Visibility, Archived, Open Issues, Full Name, and Url. The table contains three rows of test repositories. At the bottom, there's a pagination section showing "Showing 1-3 of 3", "Row count: 10", and "Go to page: 1".

ID	Name	Location	Description	Visibility	Archived	Open Issues	Full Name	Url
676458823	Test1	GitHub - testuser23468	test repo	public	no	0	testuser23468/Test1	https://
676458974	Test2	GitHub - testuser23468	Test repo	public	no	0	testuser23468/Test2	https://
676459142	Test3	GitHub - testuser23468	test repo	public	no	0	testuser23468/Test3	https://

Fill in the details, then click on "Create".

☐ Private

## Performing repository actions

To perform actions on your repository, use the menu button on the right.

ID	Name	Location	Description	Visibility	Archived	Open Issues	Full Name	Url	
676458823	<a href="#">Test1</a>	GitHub - testuser23468	test repo	public	no	0	testuser23468/Test1	<a href="https://github.com/testuser23468/Test1">https://github.com/testuser23468/Test1</a>	
676458974	<a href="#">Test2</a>	GitHub - testuser23468	Test repo	public	no	0	testuser23468/Test2	<a href="https://github.com/testuser23468/Test2">https://github.com/testuser23468/Test2</a>	
676459142	<a href="#">Test3</a>	GitHub - testuser23468	test repo	public	no	0	testuser23468/Test3	<a href="https://github.com/testuser23468/Test3">https://github.com/testuser23468/Test3</a>	
676460224	<a href="#">Test4</a>	GitHub - testuser23468	This is a repository	public	no	0	testuser23468/Test4	<a href="https://github.com/testuser23468/Test4">https://github.com/testuser23468/Test4</a>	

Showing 1-4 of 4

Row count: 10 Go to page: 1

« < 1 > »

Use the buttons to update, switch between public and private, archive or delete a repository.

testuser23468/Test1 <https://github.com/testuser23468/Test1>

In the case of archiving or deleting the repository, you will be asked to type the full name of the repository to confirm the action.

## Sorting and Filtering

You can easily sort and filter your repositories by using the header.

ID	Name	Location	Description	Visibility	Archived	Open Issues	Full Name	Url
----	------	----------	-------------	------------	----------	-------------	-----------	-----

Click on the column names to sort the columns in an ascending or descending order.

You can use the filter icons to search and filter for IDs, names, locations, etc.

### Filter by Name

CloseFilter

## Creating branches

To create a new branch for a repo from the app, please follow these steps:

1. Click on the Repository name

ID	Name	Location
676460224	Test4	GitHub - testuser23468
676459142	Test3	GitHub - testuser23468
676458974	Test2	GitHub - testuser23468
676458823	Test1	GitHub - testuser23468

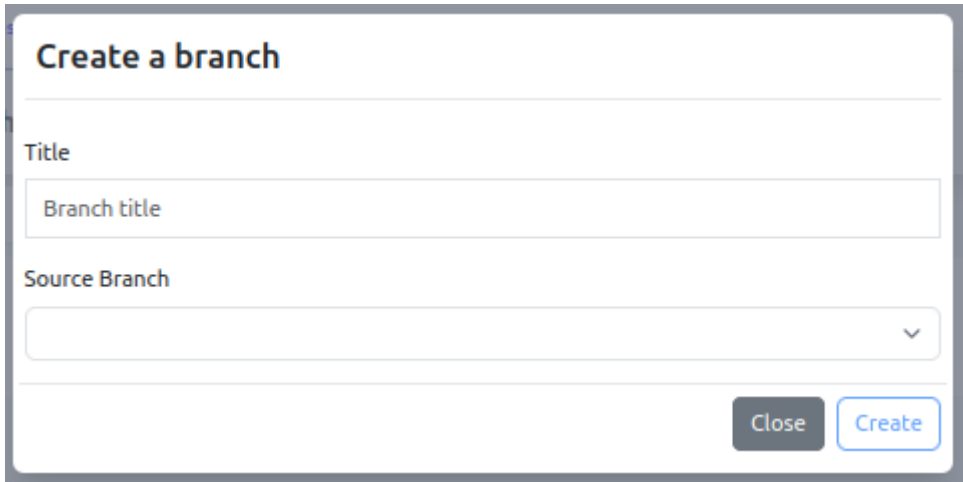

2. Select "Branches" from the top

AV	Repositories	Branches	Pull Requests
testuser23468/Test4 - Branches			

3. Then, click on "Create a branch"

testuser23468/Test4 - Branches			Search...	Q	↺	Create a branch
Name	Ref	Link	No data			

4. Fill in the details and click on "Create"

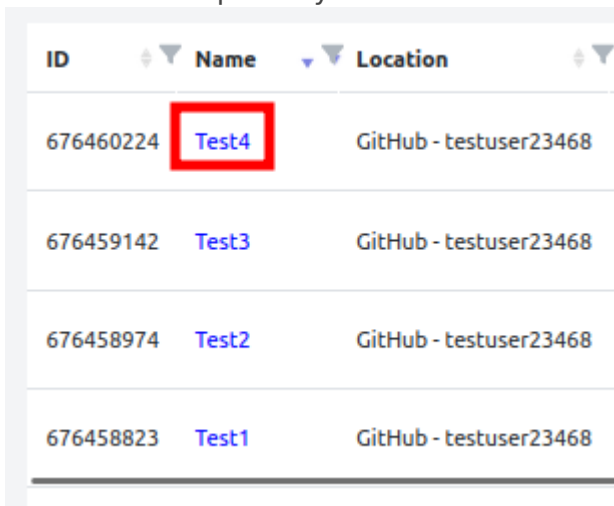

A dialog box titled "Create a branch". It contains a "Title" section with a text input field labeled "Branch title". Below that is a "Source Branch" section with a dropdown menu. At the bottom right, there are two buttons: "Close" and "Create".

## Creating pull requests

To create a new pull request for a repo from the app, please follow these steps:

1. Click on the Repository name

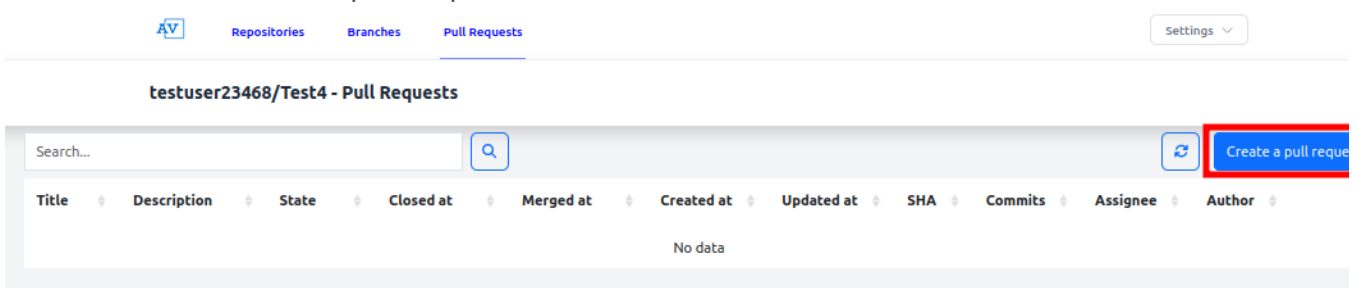

ID	Name	Location
676460224	Test4	GitHub - testuser23468
676459142	Test3	GitHub - testuser23468
676458974	Test2	GitHub - testuser23468
676458823	Test1	GitHub - testuser23468

2. Select "Pull Requests" from the top

3. Then, click on "Create a pull request"

The "Pull Requests" page for the repository "testuser23468/Test4". It features a search bar, a "Settings" dropdown, and a "Create a pull request" button (highlighted with a red box). Below the button is a table with columns: Title, Description, State, Closed at, Merged at, Created at, Updated at, SHA, Commits, Assignee, and Author. The table currently shows "No data".

4. Fill in the details and click on "Create"
