

# Reports & Charts Integration for monday.com

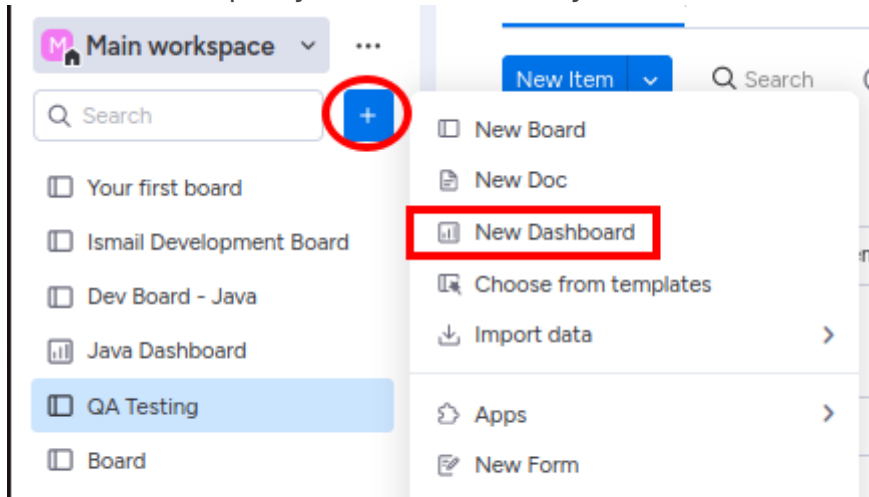

## Reports & Charts Integration for monday.com

Get this app to add reports and charts to your [monday.com](https://monday.com) dashboards and display statistics of your boards.

Once it's installed, you can start using the app right away from your Dashboards with a simple configuration.

### Adding the app to your Dashboard

1. As a first step, if you haven't already, create a Dashboard in your monday workspace:

2. Select one or multiple boards and click "Done".

## Connect boards to this dashboard ×

You can always change this later

3. On the Dashboard, click “Add widget” and choose “Apps” from the menu:

Image not found or type unknown

3. Under “Installed Apps” find Reports & Charts by Appvibe” and click “Add widget”

4. With this, you have successfully added the app to your Dashboard

## Customizing the Reports & Charts

1.

First, you need to authorize your account to start using the app. Click on the first link and follow the instructions.

## Reports & Charts by Appvibe

### Welcome to Reports and Charts by Appvibe

Let's set up the app!

First let's authenticate your account. Please [click here](#) and follow the instructions.

Please configure your chart from [Settings](#).

- Chart Type - you can configure type of the chart using dropdown (required)
- Y-AXIS - select value source for y-axis from dropdown (required)
- X-AXIS - select value source for x-axis from dropdown (required)
- Item Creation Date - filter charts by values creation date from dropdown (required)

Choose up to ten boards from the drop-down, then click Save to display the statistics.

Tip: You can always change configurations of charts from Settings

After this, click on “Settings” to set up your report.
