

Test Management for monday.com

The purpose of this Test Management application is to create and execute tests in your [monday.com](#) account. The app has two main views: the board view and the item view. The purpose of the board view is to create, edit, and organize your tests, as well as to add steps that can be executed. The purpose of the item view is to execute these tests and record the results.

Getting Started

After installing the app, first, add it to your board view, by following these steps:

1. Click on the + icon for your monday board

2. Click on "View" in the menu

The screenshot shows the Appvibe Test Management interface. At the top, there's a header with the Appvibe logo, 'Test Cases', and navigation links like 'Main Table', 'Test Management', and '+'. Below this is a toolbar with 'New Item', 'Search', 'Person', and 'Filter'. The main content area shows a list of test cases. A table with columns 'Name', 'Description', 'Coverage', 'Status', and 'Updated At' is visible. The first row shows a test case named 'Testing for item 1' with a status of 'Draft'. Above the table, there's a menu with buttons: '+ New Test', 'View' (highlighted with a red box), 'Archive', 'Duplicate', and '...'. On the left, there's a sidebar with 'Add Group' and a list of test cases.

3. Here, you can edit the basic details of the test. You can also edit the status of the test Draft/Approved/Declined. This can be used to signal to the team which tests should be used.

The screenshot shows the Appvibe Test Management interface, specifically the 'Details' tab for a test case. The header is the same as the previous screenshot. The main content area shows the details of a test case named 'Testing for item 1'. The 'Name' field is 'Testing for item 1'. The 'Description' field is 'This is a test'. The 'Coverage' field is 'None'. The 'Status' field is 'Draft'. There are tabs for 'Details' and 'Script'. The 'Details' tab is active. The 'Script' tab is also visible. The 'Status' field has a dropdown menu with 'Draft' selected.

4. Use the "Coverage" field to add tests to your monday board "Main Table". This will allow you and your team to execute the steps you add to the test. You can add multiple items to one test case.

5. To add testing steps, switch to the "Script" tab and click on "Create Step".

The screenshot shows the Appvibe Test Management interface. At the top, there's a header with 'Test Management' and navigation links like 'Main Table', 'Test Management', 'Integrate', and 'Automate'. Below the header, there's a 'New Item' button and search/filter options. The main content area has tabs for 'Details' and 'Script', with 'Script' being the active tab. A red box highlights the 'Script' tab, and a red arrow points from it to a blue '+ Create Step' button on the right. Below the tabs, there's a 'Steps' dropdown menu and the text 'No script created yet'.

6. Fill out the details of the testing step. Repeat it for as many testing steps you need.

The screenshot shows the Appvibe Test Management interface with the 'Script' tab selected. The 'Details' tab is also visible. Below the tabs, there's a 'Steps' dropdown menu and a blue '+ Create Step' button. The main content area shows a form for creating a new step. The form has a title 'Step: Step 1' and a section for 'Step 1' with 'Instructions'. Below the instructions, there's a 'Parameters' section with a table for 'Name' and 'Value'. A '+ Add M' button is visible at the bottom right of the parameters section.

Using the Item View

Use the item view to execute the testing steps you added according to the previous instructions.

1. Open the item you or a team mate has added from the "Coverage" field.
