Getting Started

- [Installation](#)

Installation

The Feature Rollout Planner is a Jira app designed to streamline the process of planning and managing feature rollouts. Follow these steps to install and enable the Feature Rollout Planner in your Jira instance.

Step 1:

Log in to Jira. Ensure you are logged in with Admin privileges.

Step 2:

Open the Atlassian Marketplace. In Jira, click on Apps → Explore more apps to access the Marketplace.

Step 3:

Search for **Appvibe Feature Rollout Planner**. Use the search bar to find the app.

Step 4:

Install the App. Click Get app or Try it free. Confirm the installation and grant the required permissions.

Step 5:

Once installed, go to Manage Apps in the Admin section to ensure it's enabled.

After installation, you can find a link to the Feature Rollout Planner under the Apps section in the menu on the left side of the screen.

By following these steps, you will have the Feature Rollout Planner ready to use in your Jira environment, enabling you to efficiently manage your project feature rollouts.
