- [Link Permissions](#)

View Link History

Step 1:

Install the Appvibe Figma Integration app from the Atlassian Marketplace to your Jira account to enhance your project management efficiency.

Step 2:

Once installed, any modification to a Figma link within a Jira issue will be automatically tracked and stored in the issue's history.

Step 3:

You can access the history of modifications at any time. This history can be viewed specifically at a link level or at a Jira issue level, providing detailed insight into changes over time.

Link Permissions

Step 1:

Go to the Appvibe Figma Integration configuration page, or click 'permission' from within the link settings in a Jira issue.

Step 2:

Select the desired permissions for each user. You can assign users one of the following permissions:

- **Viewer:** Users with view permission can see the link in the Jira issue.
- **Editor:** Users with edit permission can add, edit, or remove links in the Jira issue.
- **Admin:** Users with admin permission can manage link permissions for other users.
