Installation

Freelancer Task Coordinator is a Jira-based app designed to help streamline task management for freelancers through the Atlassian ecosystem. Follow these steps to install and enable the app on your Jira instance.

Step 1:

Log in to Jira with Admin privileges. This will ensure you have the necessary permissions to install and manage apps in your Jira environment.

Step 2:

Open the Atlassian Marketplace by navigating to **Apps → Explore more apps** in your Jira dashboard. This will allow you to browse and search for available applications.

Step 3:

Search for the app by entering **Appvibe Freelancer Task Coordinator** in the Marketplace search bar. Locate the correct app from the search results.

Step 4:

Install the app by selecting **Get app** or **Try it free**. Ensure you confirm the installation process and grant any required permissions.

Step 5:

After installation, verify the app is enabled by going to **Manage Apps** within the Admin section. This step confirms that Freelancer Task Coordinator is properly set up and ready for use.

You should now see a link to Freelancer Task Coordinator under the Apps section in the left-side menu. This app is now available for integrating and optimizing your freelance task management within Jira.
