Overview of Features

Key Features

Feature 1:

Add Links: Embed Microsoft PowerPoint links directly into Jira issues for quick access to spreadsheets.

Feature 2:

Edit Links: Update or modify embedded Microsoft PowerPoint links as the spreadsheet changes.

Feature 3:

Remove Links: Remove links when they are no longer relevant.

Feature 4:

View Links in Preview and Full Screen: Preview Microsoft PowerPoint content or expand it to full screen.

Feature 5:

Sort Links: Organize Microsoft PowerPoint links by custom criteria, name, or date.

Feature 6:

Realign Links: Adjust the positioning of Microsoft PowerPoint links within the Jira issue.

Feature 7:

View Links in List or Tile View: Toggle between list or tile layout for viewing links.

Feature 8:

Manage Permissions: Control who can view and interact with Microsoft PowerPoint links embedded in Jira.

Feature 9:

View Link History: Access the history of changes made to each Microsoft PowerPoint link.

Getting Started

Installation

Step 1:

Log in to Jira

Ensure you are logged in with Admin privileges.

Step 2:

Open the Atlassian Marketplace

In Jira, click on Apps → Explore more apps to open the Marketplace.

Search for **Appvibe Microsoft PowerPoint Integration**

Use the search bar to find the app.

Step 3:

Install the App

Click Get app or Try it free.

Confirm the installation and grant the required permissions.

Step 4:

Configure the App

Once installed, go to Manage Apps in the Admin section to ensure it's enabled.

The panel will now appear in your Jira issue view.

Step 5:

Start Using the App to add and view links for Microsoft PowerPoint

Open any Jira issue to view, add, or manage Microsoft PowerPoint links directly.

Working with Links

Add a Link

Step 1:

Inside a Jira issue, click the "Add" button. A form will appear inline, allowing you to enter:

- **Embedded URL** – The link to your Microsoft PowerPoint design.
- **Title** – A meaningful name for the design. (optional)

Step 2:

Click the "Add" button again to add your Microsoft PowerPoint link to the Jira issue.

View a Link

Step 1:

Inside a Jira issue, find the link you want to view and click the view icon for that link.

Step 2:

An inline popup will appear, showing your Microsoft PowerPoint. You can also click this for full-screen viewing.

Edit a Link

Step 1:

Inside a Jira issue, find the link you want to edit and click "Edit" from the link dropdown. A form will appear inline, allowing you to edit the Embedded URL, which is the link to your Microsoft PowerPoint design, and Title, which is a meaningful name for the design (optional).

Step 2:

Click the save button again to add your Microsoft PowerPoint link to the Jira issue.

Delete a Link

Step 1:

Inside a Jira issue, navigate to the link you wish to remove by clicking on the menu for that link.

Step 2:

Select "Delete" from the menu options. You will be prompted to confirm if you want to delete this Microsoft PowerPoint link.

Advanced

View Link History

Step 1:

Locate the Jira issue where the Microsoft PowerPoint link will be integrated using the Appvibe Microsoft PowerPoint Integration application.

Step 2:

Every change made to the Microsoft PowerPoint link within the Jira issue is automatically tracked and stored. This includes modifications like updates to the link or any related information.

Step 3:

The history of these modifications is maintained at either the link level or Jira issue level, providing a comprehensive log of changes.

Step 4:

Users can view this history at any time, ensuring transparency and traceability for the modifications made to the Microsoft PowerPoint link within the Jira issue.

Step 5:

The tracked history allows team members to stay updated on any alterations made, streamlining collaboration and accountability within the project management environment.

Link Permissions

Step 1:

Go to the Appvibe Microsoft PowerPoint Integration configuration page, or click permission from within the link settings in a Jira issue.

Step 2:

Select the desired permissions for each user. Users can be assigned one of the following permissions:

- **Viewer:** Users with view permission can see the link in the Jira issue.
- **Editor:** Users with edit permission can add, edit, or remove links in the Jira issue.
- **Admin:** Users with admin permission can manage link permissions for other users.

Help

FAQ

What if the Microsoft PowerPoint link doesn't load?

Ensure the link is public and accessible. If Microsoft PowerPoint blocks embedding, try opening it in a new tab.

Can I add multiple links to one issue?

Yes, you can add multiple Microsoft PowerPoint links to each Jira issue.

How secure are my Microsoft PowerPoint links?

All links and related meta data are stored within In Atlassian's Forge platform. Our app data is stored using Forge's hosted storage solutions, which are integrated into Atlassian's cloud infrastructure. This setup ensures that app data benefits from the same data residency features as Atlassian's core products, allowing administrators to control where the data is hosted.

Support

Support and Contact

Overview:

We are here to help you. The Appvibe Microsoft PowerPoint Integration app enables effortless management and access to Microsoft PowerPoint presentations within Jira. With seamless embedding, your team remains focused on tasks without needing to switch between tools.
