# View Link History

---

## **Step 1:**

Install the Appvibe Microsoft Teams Integration app from the Jira Marketplace to enable tracking of Microsoft Teams links within Jira issues.

## **Step 2:**

Once installed, any modification made to a Microsoft Teams link within a Jira issue is automatically tracked and stored. You can view the history of changes at both the link level and Jira issue level at any time.

# Link Permissions

---

## Step 1:

Go to the Appvibe Microsoft Teams Integration configuration page, or click on permission from within the link settings in a Jira issue.

## Step 2:

Control which users have access to the links in a given issue by assigning them one of the following permissions:

- **Viewer:** Users with view permission can see the link in the Jira issue.
- **Editor:** Users with edit permission can add, edit, or remove links in the Jira issue.
- **Admin:** Users with admin permission can manage link permissions for other users.

Assign the desired permissions for each user.
