

Installation

Product Roadmap Tracker is a Jira app designed to enhance your project management capabilities by providing a clear visualization of your product development journey. Follow these steps to successfully install and use the Product Roadmap Tracker in Jira.

Step 1:

Log in to Jira. Ensure you are logged in with Admin privileges to proceed with app installations and configurations.

Step 2:

Open the Atlassian Marketplace. In Jira, click on Apps → Explore more apps to access the Marketplace. Use the search bar to find **Appvibe Product Roadmap Tracker**.

Step 3:

Install the App. Click Get app or Try it free. Follow the prompts to confirm the installation and grant the necessary permissions.

Step 4:

Verify the Installation. Once installed, go to Manage Apps in the Admin section to ensure it is enabled. You will find a link to Product Roadmap Tracker under the Apps section in the menu on the left side of the screen.

With Product Roadmap Tracker installed, you can now effectively manage and visualize your product roadmaps directly within Jira, enhancing your team's ability to plan and track progress efficiently.
