

Installation

Project Resource Planner is a powerful application designed to enhance resource management within Jira. Follow these instructions to add it to your Jira instance and begin optimizing your project resources.

Step 1:

Log in to Jira with administrative privileges to have the necessary access for app installation and management.

Step 2:

Open the Atlassian Marketplace. In Jira, navigate to **Apps** and click on **Explore more apps** to enter the Marketplace and discover new tools.

Step 3:

Search for **Appvibe Project Resource Planner** using the search bar to quickly locate the specific app.

Step 4:

Install the App. Click either **Get app** or **Try it free**, and follow the prompts to confirm the installation. Grant the required permissions to ensure proper functionality.

Step 5:

Verify the installation by navigating to **Manage Apps** in the Admin section. This step ensures that the app is enabled and ready for use.

Once installed, easily access the Project Resource Planner by finding its link under the **Apps** section in the menu on the left side of your Jira screen.

By following these steps, you can seamlessly integrate the Project Resource Planner app into your Jira instance, enhancing your team's ability to manage resources effectively.
