

View Link History

Step 1:

Install the Appvibe Salesforce Integration app from the Atlassian Marketplace to your Jira account.

Step 2:

Link your Salesforce and Jira accounts by following the app setup instructions.

Step 3:

Once integrated, navigate to any Jira issue to begin tracking Salesforce link modifications.

Step 4:

Make any necessary modifications to the Salesforce link within the Jira issue.

Step 5:

Access the history of Salesforce link modifications at any time, either at the link level or Jira issue level, providing a detailed audit trail.
