Appvibe Zoom Integration

-

Overview of Features

Key Features

Add Links:
Embed Zoom links directly into Jira issues for quick access to spreadsheets. This feature enables users to integrate their Zoom meetings seamlessly within Jira, ensuring that all relevant documents and discussions are easily accessible.

Edit Links:
Update or modify embedded Zoom links as the spreadsheet changes. This functionality allows for easy updating, ensuring that team members always have access to the most current resources.

Remove Links:
Remove links when they are no longer relevant. Clean up Jira issues by removing outdated or unnecessary Zoom links, keeping the workspace organized and efficient.

View Links in Preview and Full Screen:
Preview Zoom content or expand it to full screen. Users can quickly glance at the content or choose to engage more deeply by viewing it in full screen.

Sort Links:
Organize Zoom links by custom criteria, name, or date. This feature provides flexibility in how links are displayed, making it easier to find and use the desired content quickly.

Realign Links:
Adjust the positioning of Zoom links within the Jira issue. This capability allows users to rearrange links to suit their workflow or preference, enhancing navigation and usability.

View Links in List or Tile View:
Toggle between list or tile layout for viewing links. Users can select the display that best suits their style, either a compact list view or a visually engaging tile view.

Manage Permissions:
Control who can view and interact with Zoom links embedded in Jira. This ensures that sensitive information is shared only with authorized personnel, enhancing security and privacy.

View Link History:
Access the history of changes made to each Zoom link. Easily track and review modifications to links, providing transparency and accountability in collaboration efforts.

Getting Started

Installation

Step 1:

Log in to Jira

Ensure you are logged in with Admin privileges.

Step 2:

Open the Atlassian Marketplace

In Jira, click on Apps → Explore more apps to open the Marketplace.

Step 3:

Search for **Appvibe Zoom Integration**

Use the search bar to find the app.

Step 4:

Install the App

Click Get app or Try it free.

Confirm the installation and grant the required permissions.

Step 5:

Configure the App

Once installed, go to Manage Apps in the Admin section to ensure it's enabled.

The panel will now appear in your Jira issue view.

Step 6:

Start Using the App to add and view links for Zoom

Open any Jira issue to view, add, or manage Zoom links directly.

Working with Links

Add a Link

Step 1:

Inside a Jira issue, click the "Add" button. A form will appear inline, allowing you to enter the following:

- **Embedded URL** – The link to your Zoom design.
- **Title** – A meaningful name for the design. (optional)

Step 2:

Click the Add button again to add your Zoom link to the Jira issue.

View a Link

Step 1:

Inside a Jira issue, find the link you want to view and click the view icon for that link.

Step 2:

An inline popup will appear showing your Zoom. You can also click this for full screen viewing.

Edit a Link

Step 1:

Inside a Jira issue, find the link you want to edit and click "Edit" from the link dropdown. A form will appear inline.

Step 2:

Edit the following details in the form:

- **Embedded URL** – The link to your Zoom design.
- **Title** – A meaningful name for the design. (optional)

Click the save button again to add your Zoom link to the Jira issue.

Delete a Link

Step 1:

Inside a Jira issue, locate the link you want to remove.

Step 2:

Navigate to the link and click the menu for that link.

Step 3:

Select "Delete" from the menu options.

Step 4:

You will be prompted to confirm if you want to delete this Zoom link.

Advanced

Advanced

View Link History

Step 1:

Install the Appvibe Zoom Integration app in your Jira environment to begin tracking any modifications to Zoom links within Jira issues.

Step 2:

Navigate to any Jira issue to view or modify a Zoom link. All changes will be recorded automatically.

Step 3:

Access the history of modifications for any Zoom link at either the link level or the Jira issue level to see all tracked changes.

Step 4:

View the stored history at any time to review modifications made to Zoom links associated with your Jira issues.

Link Permissions

Step 1:

Go to the Appvibe Zoom Integration configuration page, or click "permission" from within the link settings in a Jira issue.

Step 2:

Select the desired permissions (Viewer, Editer, Admin) for each user to control access to the links in a given issue.

Help

FAQ

What if the Zoom link doesn't load?

Ensure the link is public and accessible. If Zoom blocks embedding, try opening it in a new tab.

Can I add multiple links to one issue?

Yes, you can add multiple Zoom links to each Jira issue.

How secure are my Zoom links?

All links and related meta data are stored within Atlassian's Forge platform. Our app data is stored using Forge's hosted storage solutions, which are integrated into Atlassian's cloud infrastructure. This setup ensures that app data benefits from the same data residency features as Atlassian's core products, allowing administrators to control where the data is hosted.

Support

Support and Contact

Overview:

We are here to help you. The Appvibe Zoom Integration app simplifies the management and access of Zoom functionalities within Jira. With seamless integration, your team remains focused on tasks without needing to switch tools.
